ENTERING OUR HEALTH PROFESSION

It was a big decision . . . carefree days of college . . .
. . . aptitude tests and applications . . . we received our letters
of acceptance . . . registration . . . stacks of books . . .
lines in the book store . . . we began more years of study

BASIC MEDICAL SCIENCES PREPARE US

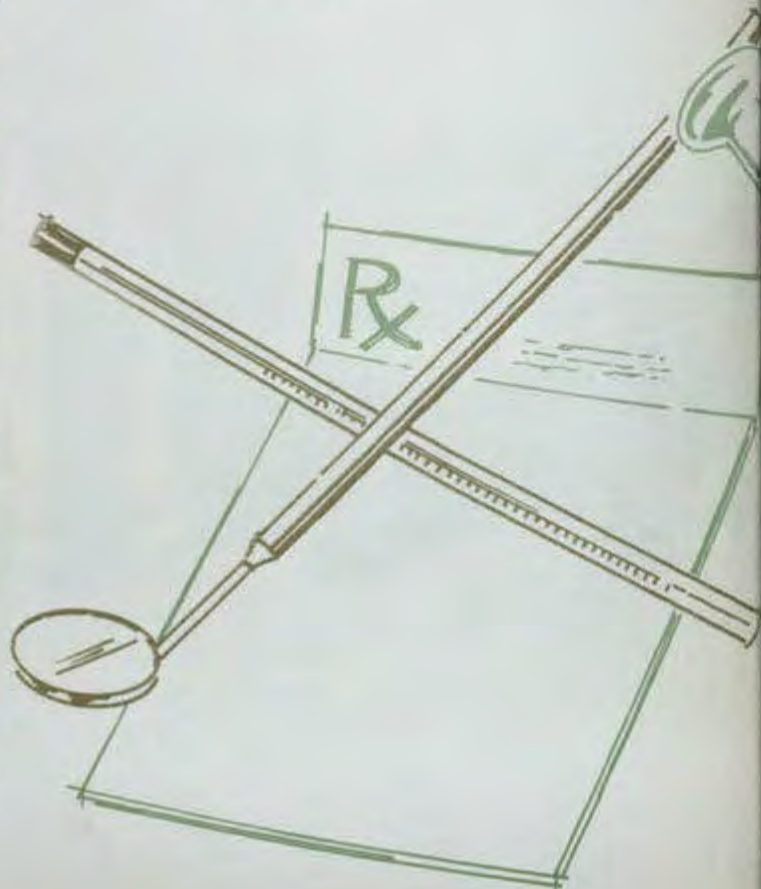

Nursing students determine the acid content of solutions by chemical titration.

A detailed study of anatomy is undertaken by students in medicine through a dissection of the human body.

Senior dental students supervise freshmen in carving lab.

Cranial nerves, on old olympic's towering tops . . .
 cram for tests . . . Krebs' cycle, embryo, neuro,
 histology . . . wearing that white coat seems so far
 away . . .
 Night sessions in gross lab . . . eye strain from
 microscopes . . . little brown jug how I love thee . . .
 that upper central incisor . . .
 Analysis of chemicals . . . math was tricky . . . when
 did you shave? . . . is whiskey an official spirit?
 . . . Dean wants to see you . . .
 Starving for the sake of chemistry . . . smoke in
 anatomy, never!! . . . Ouch! Those first injections . . .
 gagging over the hopper.

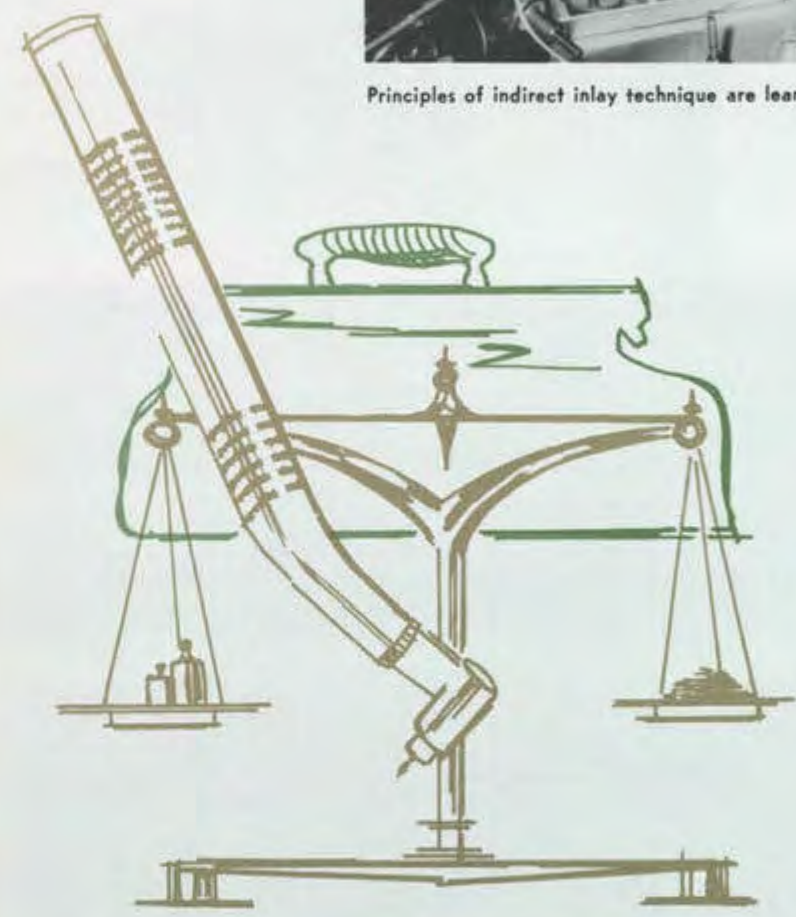

FOR OUR FUTURE PROFESSIONAL CAREERS

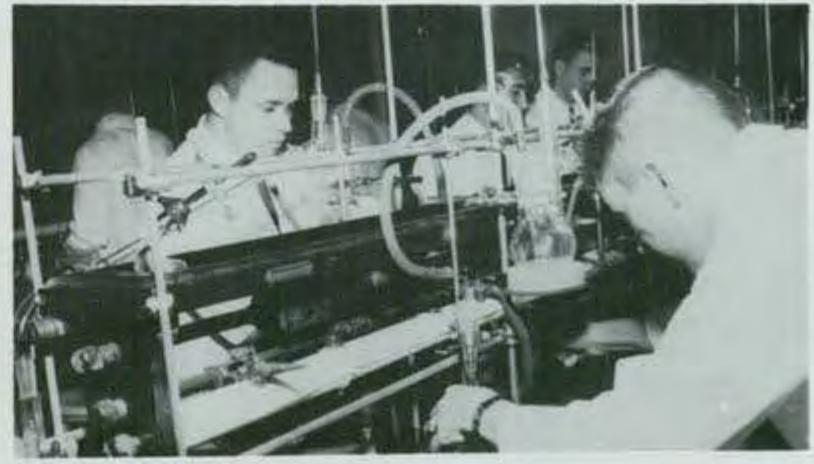

WE CONTINUE OUR INTENSIFIED STUDY
IN THE VARIOUS HEALTH FIELDS

Principles of indirect inlay technique are learned in operative dentistry.

The chemical properties of the components of pharmaceutical compounds are investigated in organic medicinals laboratory.

Autopsy call at 4:00 a.m. . . . forget the minutia, but what in the hell is a Touton cell? . . . have you read little Andy? . . .
 Shined shoes and starched jackets for operative . . . more wire for Adam's clasps . . . Saturday morning in pathology lab . . . introduction to copper bands . . .
 Smell of micro-lab . . . what's $E = \frac{mc^2}{h}$? . . . chemical structures in dreams . . . who stole my unknown? . . .
 Pecog's a breeze . . . who has that report? . . . I got all P's . . . Dr. Haberle I need help! . . .
 Forty-five minute coffee breaks . . . enriched bread, powdered skim milk, and hog maw . . . "That's so classic" . . . but the patient doesn't have a problem . . . those long halls at Kennedy.

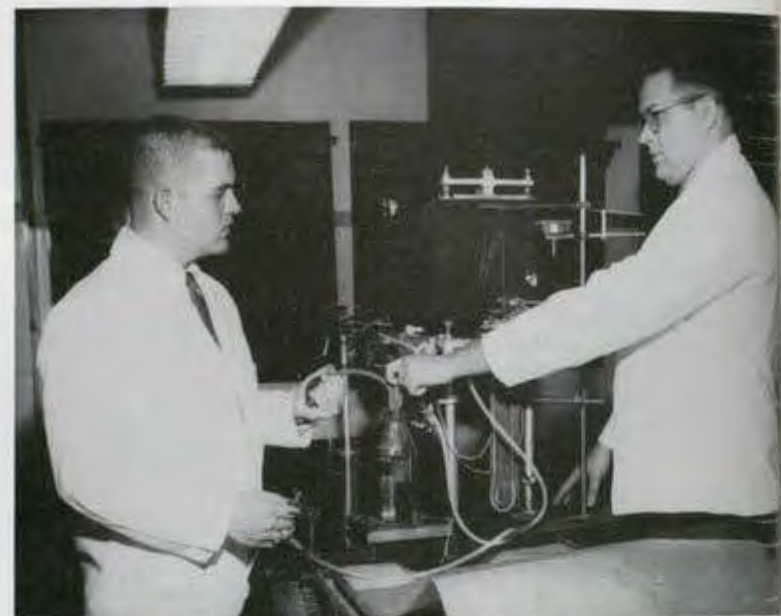

The pathologist demonstrates a pathological lesion to students on autopsy call.

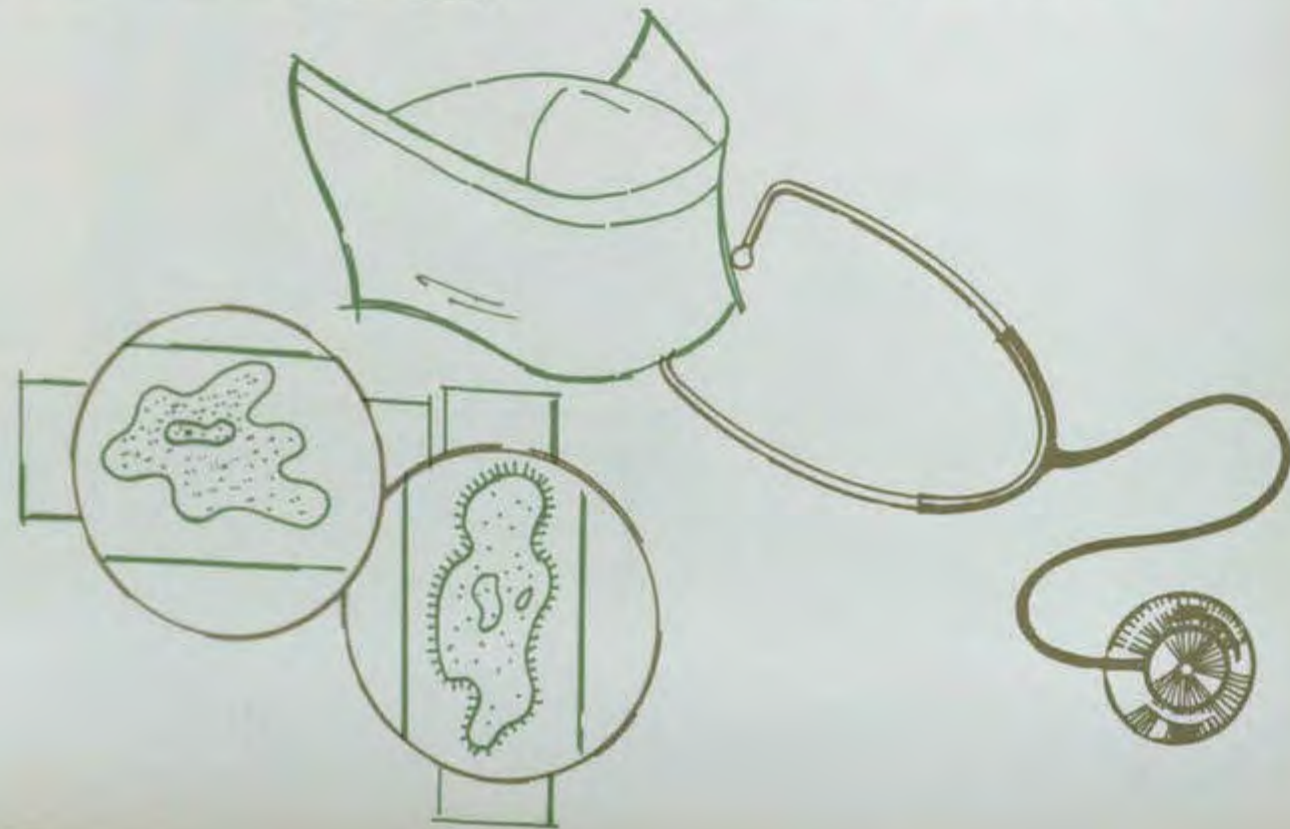

Wax patterns are carved to correct form prior to casting in gold for partial denture abutments.

"Play" therapy for hospitalized children is an important phase in pediatric nursing education.

Students set up the kymograph, which records changes in blood pressure and pulse rate, preparatory to a pharmacological experiment.

Neurology is tough . . . snakes and caves . . . did you measure the diagonal conjugate? . . . lecture in peter rabbit's and at the coo-coo Hilton . . . Lilly's classification . . . word for word, you're joking . . .
 Racing to the dark room during Friday endodontics lab . . . those first 300 points were the hardest or was it the last 300? . . . morning after morning after morning of pedo . . . but Miss Bowman, I've got to have the gold! . . . the year of the practical . . .
 Explosion in lab . . . fingerprints on the weights . . . is it day or night? . . . let's make some dex . . . Bulldog just bit . . .
 Dunn said your done . . . water balance or beer balance . . . I just killed my dog . . .
 Those awful Tuesdays and Thursdays at Memphis State . . . wait a minute, I'm not the patient . . . pant like a puppy dog. Mama . . . some children cry when they're hurt . . .

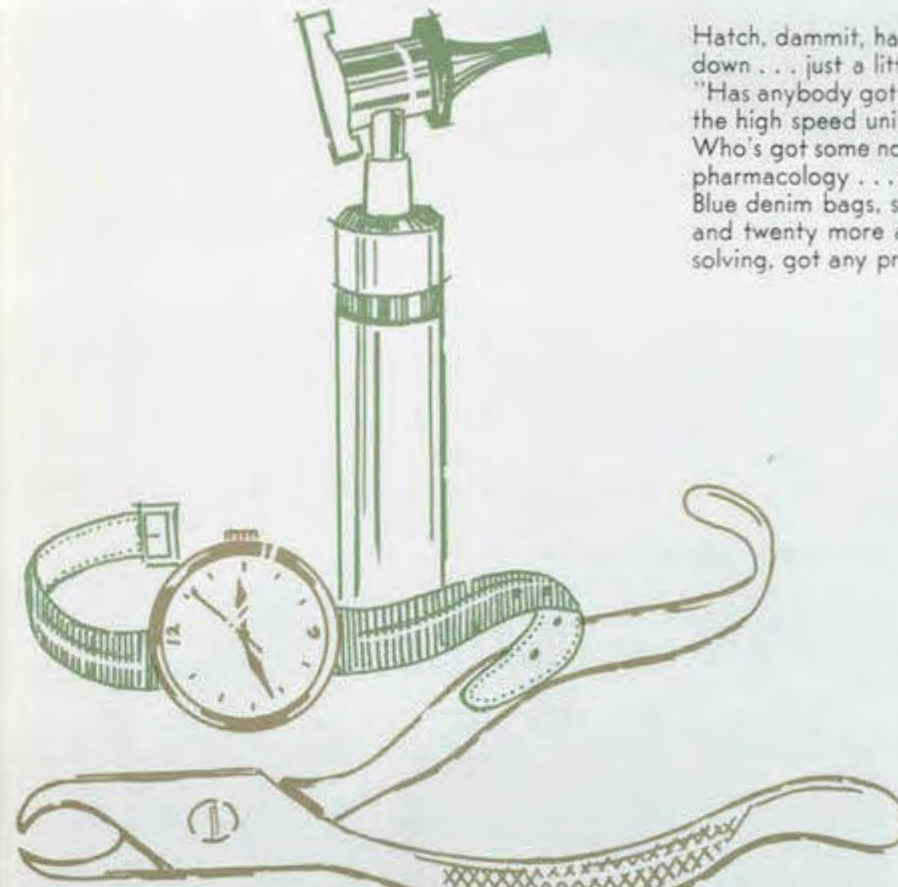

THE COURSE OF INSTRUCTION IS DIRECTED TOWARDS UNITING US AS A HEALTH UNIT

KNOWLEDGE IS GAINED
PRACTICE OF

THROUGH SUPERVISED
OUR PROFESSIONS

A prescription is compounded by pharmacy students and carefully checked for accuracy by the instructor.

Hatch, dammit, hatch . . . why do they call it prayer meeting? . . . slide down . . . just a little bit more . . . isn't general surgery just great? . . . "Has anybody got a class III foil?" . . . partial dentures!! . . . hooray for the high speed unit . . . Miss Margaret, I've got a problem . . . Who's got some notes? I don't remember any trip to Upjohn . . . pharmacology, pharmacology . . . three more sets in dispensing and no more time . . . Blue denim bags, satchels and chasing the city buses . . . only a hundred and twenty more articles to read . . . she's not old, just 106 . . . problem solving, got any problems . . . look's just like an ink blot to me.

Night orders for patients are an integral part of training for physicians.

Senior students in nursing get further preparation in public health field.

VICE PRESIDENT

In Charge of the Medical Units

Each year several thousand young men and women take up their activities in the professions of medicine, dentistry, nursing, and pharmacy, and in the fields allied to and supportive of these professions.

Each member of this group has a vital and specialized contribution to make toward a total effort upon which is dependent the health of our country's peoples. Some may be

called upon to shoulder more direct responsibilities, and in so doing, will be cast in the hard light of public acclaim or criticism. None, however, can discharge his responsibilities alone, but must look to others of varied training and skills whose roles frequently are played in the background of anonymity.

Whether your chosen role puts you "on stage" or in the "supporting cast", be proud and humble in the knowledge that you will participate in the greatest and most awesome of all endeavors, the alleviation of suffering in the sick.

Our blessings go with each of you as you take up your life's work.

Homer F. Marsh, Ph.D.
Vice President of the University
in charge of the Medical Units.

COLLEGE OF MEDICINE

The College of Medicine was founded in 1876 in Nashville, transferred to Memphis in 1911 and during the past 52 years has grown to become one of the larger medical centers.

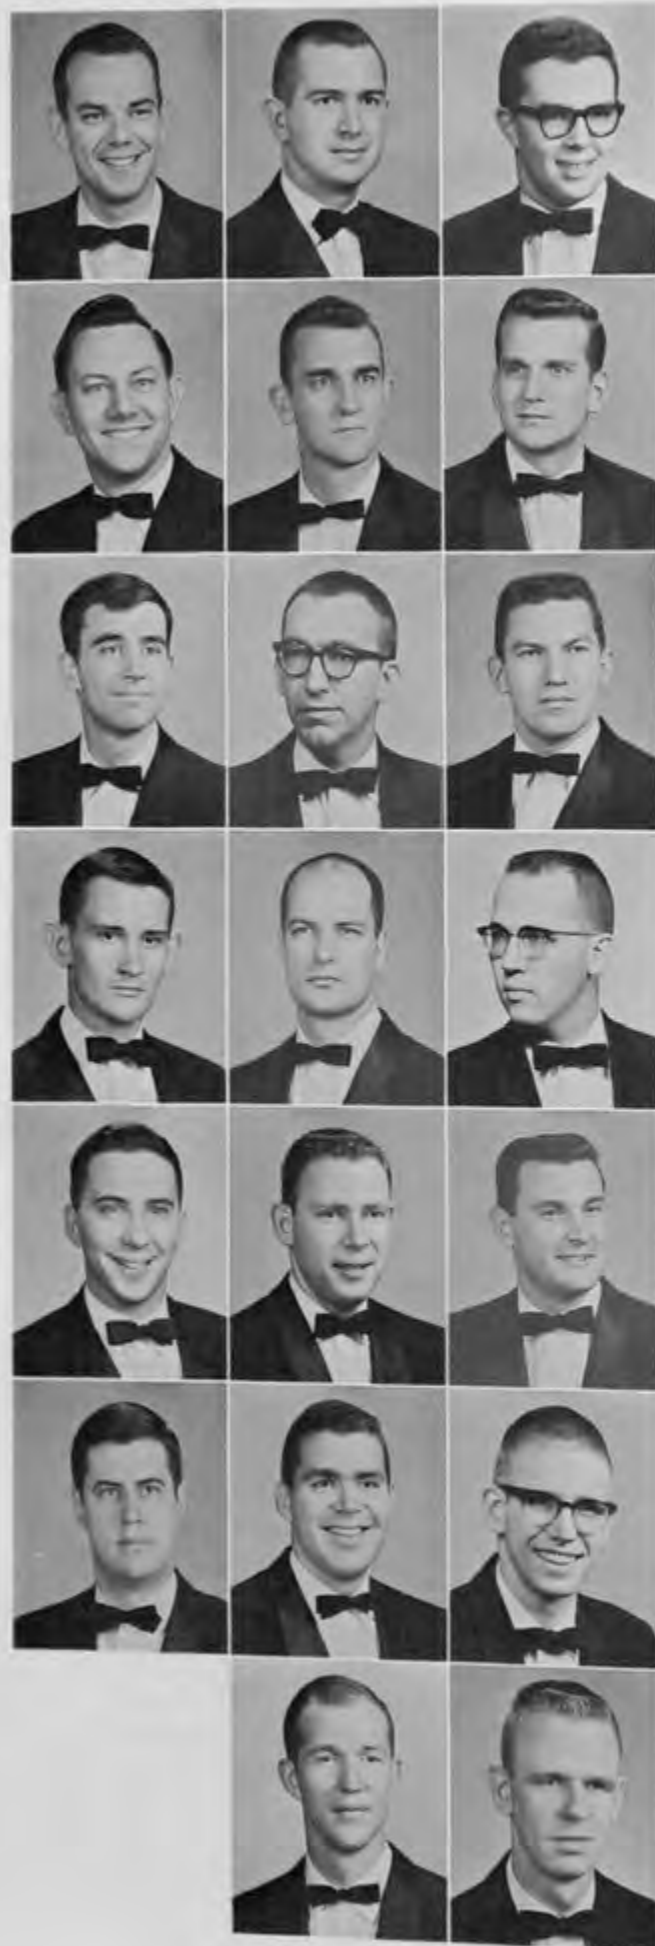

The College of Medicine maintains a balanced curriculum with sufficient flexibility to train and graduate students in the medical profession as family doctors, specialists, fellows of research and instructors in medical colleges.

Pre-clinical study through lectures and laboratory training in courses of Anatomy, Physiology, Biochemistry, and Pathology provide fundamental knowledge of health and disease.

Clinical years are spent in the continuation and application of study in the out-patient clinics and within the University staffed hospitals and laboratories. Increasing opportunities are becoming available for those students interested in research.

At the University of Tennessee, medical students are uniquely fortunate in being able to participate in the family care program, as a student doctor to a carefully selected indigent family under the close supervision of staff physicians.

GRADUATE SCHOOL

COLLEGE OF DENTISTRY

The College of Dentistry was established in Nashville in 1878. It was moved to Memphis in 1911. The present facilities of the dental building offer the student all of the modern equipment used in the profession today.

The curriculum is divided into two phases, pre-clinical and clinical work. In the beginning years, the student studies basic medical sciences and courses in dental anatomy, designed to improve his manual dexterity as he familiarizes himself with basic tooth anatomy. Technique courses are added to the curriculum as the student progresses. During this period, he becomes familiar with the various phases of operative dentistry and crown and bridge and complete denture prosthetics.

The clinical years are spent utilizing the knowledge learned by applying these principles in the restoration of the oral cavity. The student develops a working knowledge of all phases of dentistry by working under the supervision of qualified instructors in the various fields, which include surgery, periodontics, pedodontics, diagnosis, operative dentistry, crown & bridge prosthetics and partial and complete denture prosthetics.

COLLEGE OF PHARMACY

The School of Pharmacy was organized in 1898 at Knoxville. In 1909 it was moved to Nashville and then in 1911 it was located in Memphis. The name was changed to the College of Pharmacy in 1959. It is a member of the American Association of Colleges of Pharmacy and is one of the largest Pharmacy Colleges in the South. The instruction in both classroom and laboratory work is in the hands of experienced educators who devote their time to teaching and research. The College has the largest pharmacy faculty in the nation and has advanced greatly in recent years. The laboratories have been modernized and the most modern equipment is available for use in learning. The new Pharmacy-Dentistry research building has provided space for specialized laboratories concerned with the advancement of pharmacy.

COLLEGE OF NURSING

The College of Nursing was first established in 1898 as the Training School of the Memphis General Hospital. In 1926 it became the University of Tennessee School of Nursing as the result of an arrangement between Memphis General Hospital and the University. The School became autonomous in 1949 and established a program leading to the degree of Bachelor of Science in Nursing in 1950. The current program, inaugurated in 1958, requires students to spend one year in a liberal arts college. During three years at the Medical Units, nursing students broaden and supplement their knowledge with related subjects as well as those directly concerned with the profession of nursing.

To the Faculty of the School of Basic Medical Sciences falls the responsibility of providing the foundation teaching for the students in the Medical Units, whatever their major professional goal. In addition to those pursuing careers in medicine, dentistry, pharmacy and nursing, are the growing numbers of people in the paramedical fields: medical technology; cyto-technology; clinical microbiology; histological technique; and physicians' office assistants. To accomplish the instructional programs for all of these members of the health team requires over ten thousand, five hundred clock hours of undergraduate teaching each year.

GRADUATE SCHOOL—MEDICAL SCIENCES

Education in the health-related professions is becoming so well-advanced scientifically that it is increasingly dependent upon and closely related to fundamental fields of knowledge. Biological, physical, and mathematical sciences form the basis of scientific medicine and, increasingly, other health professions. A strong graduate program not only provides essential undergirding for the health professions, but through the ferment engendered by the association of advanced students and scholars it provides the climate in which teacher-investigators for the future are developed. Support for basic research and research training has risen from about \$100,000 a decade ago to \$1,365,000 last year.

OMEGA CHAPTER OF

ALPHA EPSILON IOTA

Alpha Epsilon Iota, national women's medical fraternity, was founded February 26, 1890, at the University of Michigan College of Medicine. The local chapter, Omega, was established September 28, 1940. Officers for 1962-63 are: President, Jennifer Johnson; Vice-President, Suzanne Williams; Secretary-Treasurer, Pat Clifford. Dr. Elise Jones and Dr. Alys Lipscomb have been our sponsors this year. The purpose of the fraternity is to promote good fellowship among women in medical school, a high order of scholarship, and professional achievement; and to serve to bring the woman medical student and practicing physician into closer relationship.

OMEGA CHAPTER OF

ALPHA KAPPA KAPPA

Alpha Kappa Kappa Medical Fraternity was founded September 29, 1888, at Dartmouth Medical School in Hanover, New Hampshire. It has active chapters in most of the important medical centers in the United States and Canada.

AKK, the oldest medical fraternity on the University of Tennessee College of Medicine campus, was organized March 24, 1903 as Omega chapter.

AKK is proud of its beautiful house and grounds, which were made possible through the efforts of the alumni and the fraternity. Located at 747 Court, the house is the nearest medical fraternity house to the campus and offers living accommodations and recreation facilities for its members and pledges.

AKK has shown an active interest in sports, entering all major sporting events with an enthusiastic team. On the academic side of college life, the members of the fraternity have always maintained a high level of scholastic achievement. In addition, the rush parties and the weekend "get-togethers" are always a welcome relief from the grind of studying.

Many of our state's most prominent physicians are alumni of AKK, and we in the fraternity are proud of their achievements and thank them for their continued interest in the fraternity.

AKK is looking forward to another fine year—with the hope of growing even better through the continued efforts of the officers, the members, and the alumni.

DELTA SIGMA DELTA

In November of 1882 Delta Sigma Delta Fraternity was founded at the University of Michigan. The present Kappa Kappa Chapter at the University of Tennessee was established on May 27, 1921 after closing of the Dental School at Vanderbilt University. Since the founding of Delta Sigma Delta to the present day, the fraternity has grown internationally with the chapters located at dental teaching institutions throughout the world. The members and alumni of Delta Sigma Delta regard the fraternity as a standard in dentistry, one which strives to create a better dentist, and one which adds strength and prestige to the profession. Delta Sigs at the University have always been proud of their scholastic records. At the present time we hold the scholarship trophy which was presented us after attaining the highest scholastic average in the Dental School. We are also proud of our Alumni who are leaders in our National, state, and local societies and associations. Our past speaks for itself; the voice of the future shall echo greatness to come.

PSI CHAPTER OF

KAPPA PSI

The first pharmacy fraternity of the professional fraternities, Kappa Psi, was founded at Russell Military Academy, New Haven, Connecticut, on May 30, 1879. Since that time Kappa Psi has steadily progressed to its present strength of over fifty active collegiate chapters and twenty-two active graduate chapters with more than 50,000 members.

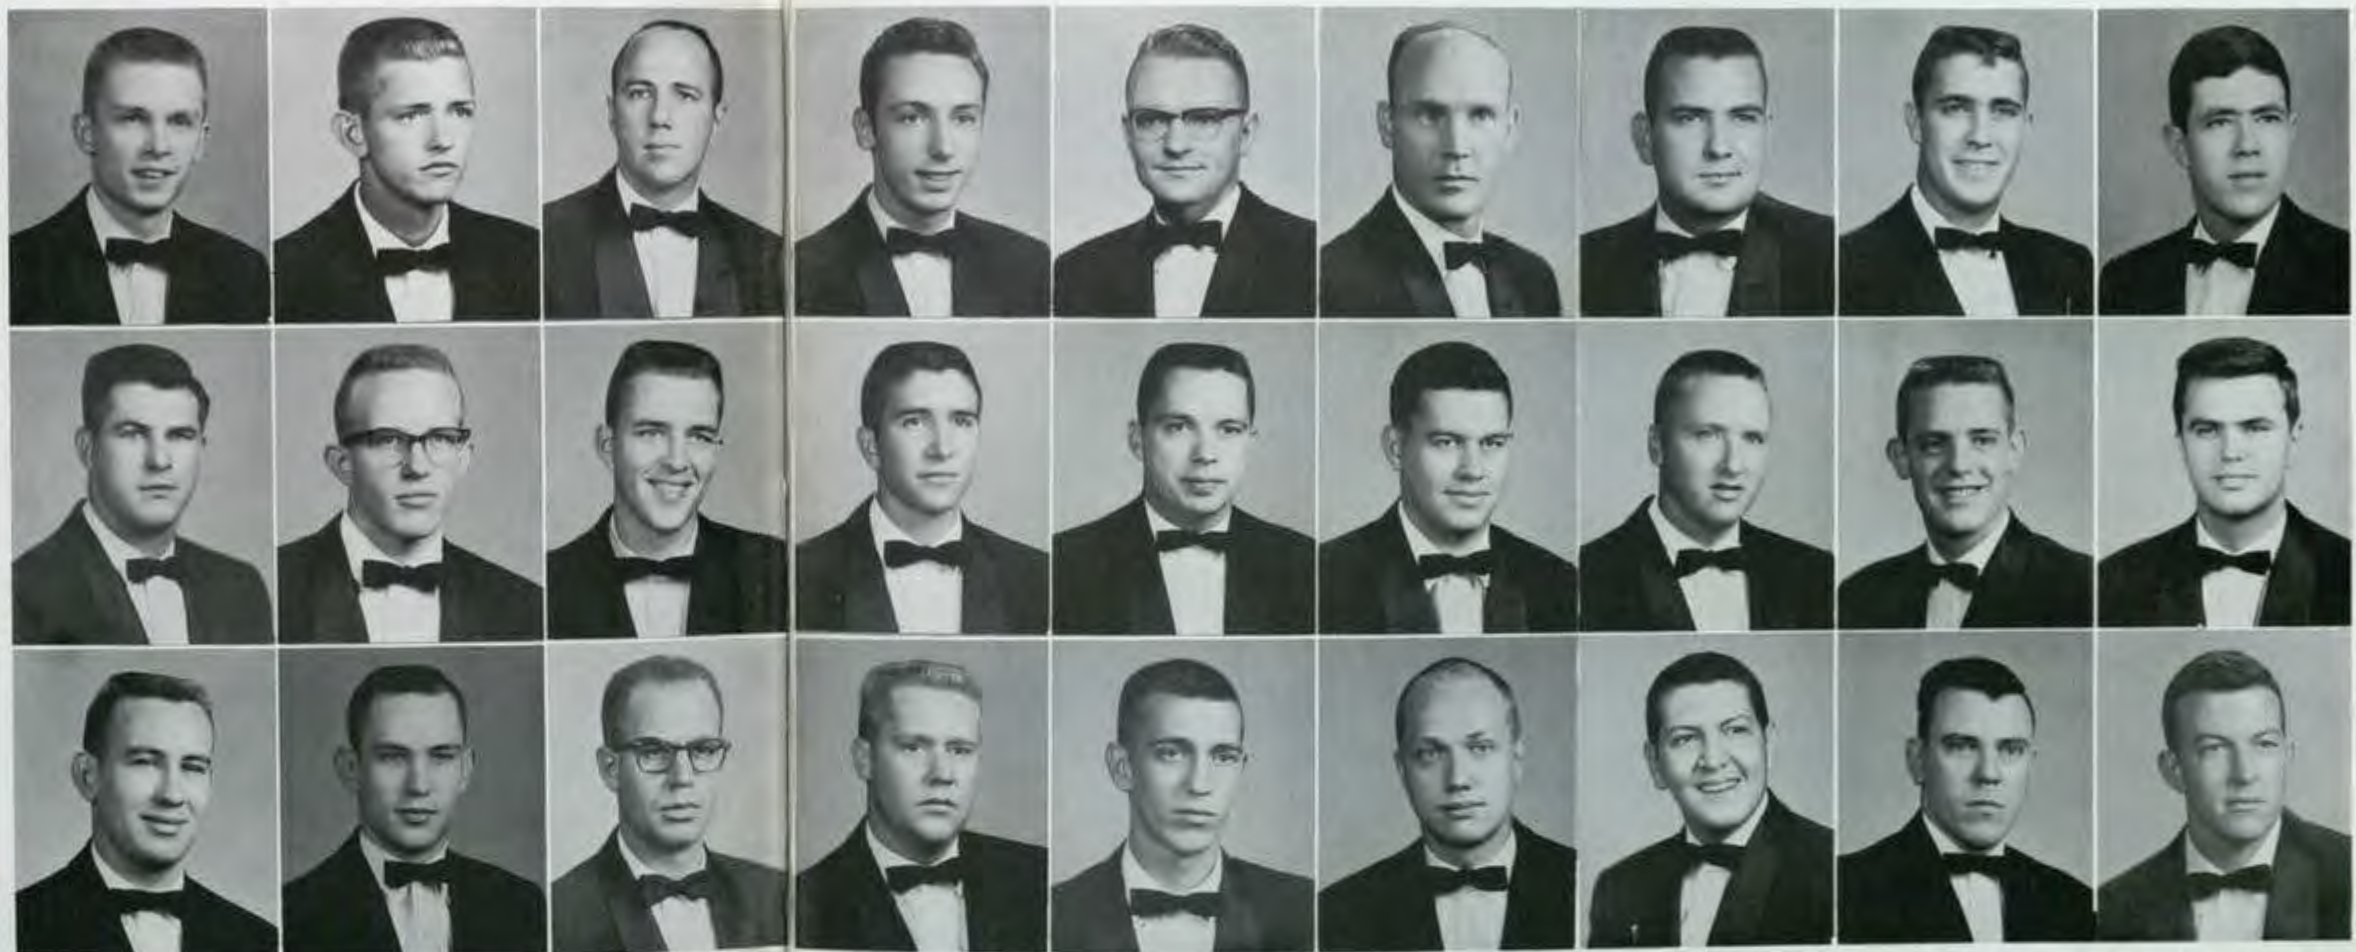

Psi Chapter was organized at the University of Tennessee in Memphis in 1913. After a slow but steady increase in membership, Psi Chapter moved to its present location at 242 South Pauline, and since that time has become the largest pharmacy fraternity at the University of Tennessee. We boast 99 active members and are presently the second largest Kappa Psi Chapter in the United States.

This year marked the 50th anniversary of Psi Chapter. This was celebrated by an open house and a banquet and dance held at the Hotel Chisca. Several of the national officers of Kappa Psi attended including Dr. Glen Sperandio, First Grand Vice Regent.

The men of Kappa Psi hold many of the class offices as well as offices in the other various organizations on the campus. Psi Chapter is always a competitor in the intramural league participating in all athletic contests. Our chapter is especially fortunate to have such fine supervision from our faculty members, Dr. J. E. Haberle, our Grand Council Deputy, Prof. William B. Swafford, and Dr. Karl J. Goldner.

Kappa Psi is a member of the Professional Interfraternity Conference organized in 1928 to encourage high scholarship, professional research, advancement of professional ethics, and the promotion of a spirit of comity among the professional fraternities in the advancement of fraternal ideas.

ALPHA EPSILON CHAPTER OF

LAMBDA KAPPA SIGMA

Lambda Kappa Sigma, the oldest and largest international pharmaceutical sorority, was founded at the Massachusetts College of Pharmacy on October 14, 1913. There are now 40 active chapters and 18 graduate chapters. Alpha Epsilon chapter, at the University of Tennessee, received its charter on May 18, 1951.

Rushing began winter quarter with a bridge party on January 4. A dance was held January 11 honoring the rushees; at this time Edd Bissell was named Mr. Lambda Kappa Sigma of 1963.

At the pledging ceremony held on January 30, fifteen girls were pledged. On February 8 the pledges were initiated, making Alpha Epsilon the largest it has ever been. The sorority's main fund raising event of the year was a card party-fashion show held February 22. Our annual banquet and dance, honoring the graduating seniors, was April 6. Lambda Kappa Sigma once again has the honor of being first in the scholastic competition on campus. Four of the graduating seniors will receive the Ethel J. Heath Scholarship Award, which is given to those who have an average of 90 or above in all college work. Those receiving the award are Betty Hart, Judy Buterbaugh, Millie Baltz, and Anna Jean Robertson.

Alpha Epsilon Chapter is now making plans for the international convention of Lambda Kappa Sigma which is to be held in Memphis June 21-25, 1964.

ALPHA BETA CHAPTER OF

PHI CHI

The Phi Chi Medical Fraternity was founded at the University of Vermont on March 31, 1889. It has grown to become the largest medical fraternity in the world with 58 chapters spread over the world. At present there are over 45,000 members.

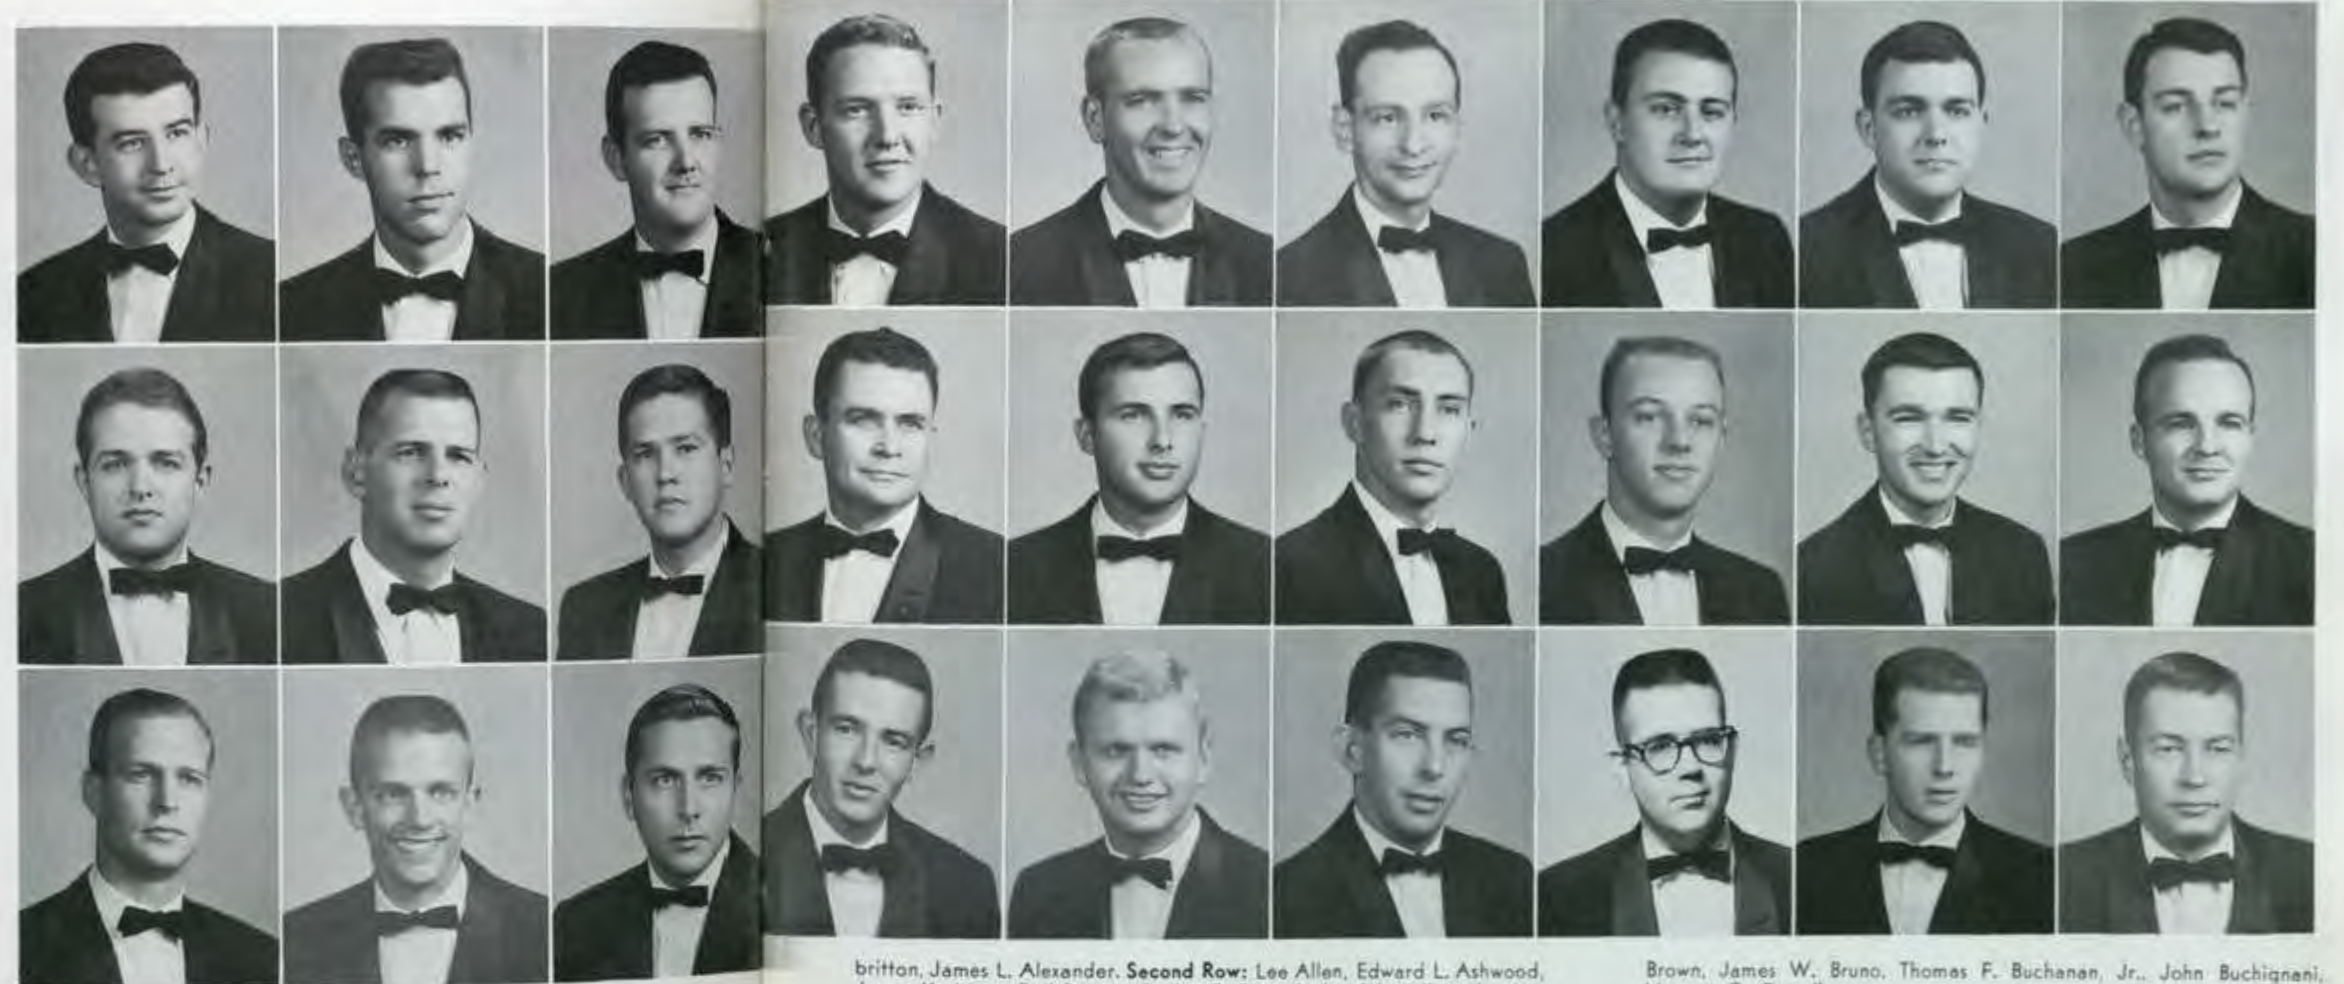

Alpha Beta Chapter was founded here at U.T. in 1913, and was officially installed April 4, 1913. In 1930, the Alumni Association purchased our house which is located at 216 N. Waldran. We at Alpha Beta are the largest chapter of the largest medical fraternity in the world. At this time our membership is 183, of which 61 live in the house.

Presiding officers are: Norton T. Montague, Presiding Senior; Harold C. Ray, Past Presiding Senior; Charlie White, Presiding Junior; Tom Currey, Secretary; David W. Gaw, Treasurer; Bill Nightingale, House Manager; and George Hansberry, Judge Advocate.

Here at Phi Chi, opportunities for academic accomplishment as well as rounded social activities are available to all members. We are consistently leaders of the medical fraternities scholastically, which is a most important aim.

In campus leadership Phi Chi members claim 10 of the 13 class presidencies; the treasurer of the student council, Bailey Binford; the past president of the student body, Bill Warmath. Athletically, Phi Chi has won the yearly intramural trophy for 13 out of the last 16 years. We are also indeed proud of Phi Chi's role in the social life of the medical center. This includes a wide spectrum of activities, among which are our monthly family night dinners attended by most of the married members and their families, as well as single members and their dates; and our regular fraternity parties for which Phi Chi is well known.

There are also the year's special events, such as our renowned New Year's Eve Party and our Founders Day Banquet and Dance. In addition to these activities, we play host to numerous individual class parties throughout the quarter, which completes Phi Chi's well rounded social calendar.

First Row: Harold C. Ray, Past Presiding Senior; Norton T. Montague, III, Presiding Senior; Charles E. White, Presiding Junior; Thomas W. Currey, Secretary; David W. Gaw, Treasurer; George W. Hansberry, Judge Advocate; William Nightingale, House Manager; John F. Al-

OMEGA CHAPTER OF

PHI DELTA CHI

The Phi Delta Chi Fraternity was founded on November 1, 1883, at the University of Michigan. Eleven men were gathered here to effect an organization to advance the science of pharmacy and to foster and promote a fraternal spirit among its members. From this beginning, the fraternity has grown to a present size of forty active chapters, serving the major colleges of pharmacy in the United States.

The Omega Chapter, the twenty-fourth chapter of Phi Delta Chi, was founded in 1922 at the University of Tennessee at Memphis. Dr. R. L. Crowe, Dean of the School of Pharmacy at that time and later Grand President of Phi Delta Chi, was influential in founding the chapter. It is with great pride that we of Phi Delta Chi look at the past record of this fraternity. Scholarship has always played an important part in the life of this group. Members of this group hold important offices in the Student Branch of the A.Ph.A., Rho Chi, and Student Council.

Phi Delta Chi has a very strong intramural program, ranking high among its competitors. Great leaders of all pharmaceutical endeavors since 1883 have been grounded in the valuable lessons of Phi Delta Chi Fraternity democracy. There has been found to be no substitute for this training. It is the "grass roots" of our total accomplishment. Individual chapters and their adherence to great and dynamic fraternity principles for the promotion of the profession make us strong. Collective efforts of our forty chapters make us a great and forward force in the American Pharmacy of today.

CHI EPSILON CHAPTER OF

PHI RHO SIGMA

Phi Rho Sigma international medical fraternity was founded at Northwestern University in 1890. It has since grown to 27 undergraduate and 20 alumni chapters with approximately 2,000 and 20,000 members respectively. Chi Epsilon Chapter of Phi Rho Sigma was founded as Lambda chapter of Chi Zeta Chi fraternity at the University of Tennessee in 1906. The two fraternities merged in 1929 under the present name.

A professional fraternity with a program aimed at professional advancement of its members and service to the school, profession and community, Phi Rho Sigma also sponsors a regular social program. A new, modern chapter house, completed in January 1962, is the site of many fraternity and class social functions, as well as providing living quarters within walking distance of school for 32 men.

PSI GAMMA CHAPTER OF

PSI OMEGA

Psi Omega Dental Fraternity was organized in 1892. Since its organization it has grown to be the largest Greek Letter Dental Fraternity in the world. At present there are thirty-six school chapters and forty-seven alumni chapters. Psi Gamma Chapter was founded in 1926 at the University of Tennessee Medical Units and is now the largest Dental Fraternity on campus. Psi Gamma Chapter is proud of its scholarship record and the fellowship which now exists within the fraternity.

Psi Omega fraternity seeks to create an atmosphere of professional congeniality that will last not only throughout the years of dental study, but also in the years of dental practice that lie ahead.

Soon Psi Gamma Chapter will be moving from the landmark at 1234 Union and into a modern facility that will better enable us to carry out our purpose—both to help men while in school and to fit them to be good members of the health team.

ALPHA OMICRON CHAPTER OF

Xi Psi Phi

Alpha Omicron Chapter of Xi Psi Phi received its charter March 26, 1921. It remained an active chapter till the outbreak of World War II. At this time it became inactive and remained so until November 15, 1947, when it became reactivated. Since this time our members have been active in all the activities sponsored by the University of Tennessee. The ZIP fraternity is top ranking in intramurals and is noted for its leadership, scholarship, its new party room, and senior parties. We know our graduating seniors will excel in all their endeavors, and our new pledges and members will continue the great heritage of Xi Psi Phi.

ORGANIZATIONS

Alpha Omega Alpha is a non-secret college medical honor society, membership to which is based entirely upon SCHOLARSHIP, moral qualifications being satisfactory. It was organized at the College of Medicine of the University of Illinois, Chicago, August 25, 1902, and it is the only order of its kind in medical schools on this continent. Its definite mission is to encourage personal honesty and the spirit of medical research. The Tennessee chapter elects members early in the spring quarter and holds its initiation banquet in June of every year. An effort is made at that time to obtain a speaker to give a talk on some medical or non-medical topic which is of current interest.

Omicron Kappa Upsilon is a society of dentists whose purpose is as stated in the preamble of the society's first constitution, "To encourage and develop a spirit of those who shall distinguish themselves by high grade of scholarship."

The society was organized in 1914 at Northwestern University Dental School. The official insignia adopted in 1915 embodies the spirit of the society. The insignia is a key with the letters, O (Omicron), K (Kappa), and U (Upsilon) by the Greek letter S (Sigma). The first three initials, which indicate the name of this society, are derived from three Greek words, Odontos (teeth), Kai (and), and Hygia (Health). The encircling letter S (Sigma) derives from the Greek word Soteria (conservation or preservation), and represents the all-embracing ideal of conservation which is the chief concern of the dental profession and its oral health service.

There are 46 chapters with approximately 9,500 members. Psi Chapter was founded May 15, 1929, and now has a membership of 114. Its charter members were R. S. Vincent, R. D. Dean, C. P. Harris, J. F. Bigge, W. E. Lundy, L. J. McRae, J. J. Ogden, J. D. Towner, and W. J. Templeton.

Election to the society is not only a recognition of accomplishment as a student, but also an insignia of both promise and expectancy of leadership in dentistry after graduation.

Alpha Nu Chapter of Rho Chi, national honorary pharmaceutical society, was established at the University of Tennessee in 1948. Eligibility for membership in the society is based on high attainment in scholarship, character, personality, and leadership. All candidates selected for membership must have completed the eighth quarter of the curriculum of the College of Pharmacy.

The fundamental objective of Rho Chi has always been to promote the advancement of the pharmaceutical sciences through the encouragement and recognition of intellectual scholarship. To attain this end, high standards of scholarship have been demanded for election to membership with the view that scholarly attainment indicates the capacity of the individual for outstanding achievement in pharmacy. Experience has shown that the reward of election to membership symbolized by the award of the Rho Chi key, supplies a scholarship incentive unequalled by any other rewards such as prizes or medals.

The R. D. Dean Odontological Society was founded at the University of Tennessee on December 6, 1948. It is an honorary society for undergraduate students in the College of Dentistry. It was named by its founders to honor Dr. Richard Doggett Dean, former Dean of the College of Dentistry and his wife, Dr. Marguerite Taylor Dean, former associate professor of Oral Pathology. Its membership consists of outstanding junior and senior students who are selected by a combined Faculty-Student Election Committee. The purpose of the society is to propagate and perpetuate professional ideals and ethics; to exert its influence untiringly for the advancement of the dental profession in methods of teaching, practice and jurisprudence; to elevate and sustain the professional character and education of dentists; to promote among them mutual improvement and good will; and to disseminate knowledge of dentistry and dental discoveries.

The Student Council is composed of four officers of the student body and the presidents of each quarter's class in Medicine, Dentistry, Pharmacy, Nursing, Dental Hygiene, and Medical Technology and delegates from other representative organizations on the campus. The officers of the Student Council are elected in a general election of the student body and serve for one year. The offices of President, Vice-President and Treasurer are rotated yearly between the Colleges of Medicine, Dentistry, and Pharmacy and the Secretary is nominated from the College of Nursing. The purpose of the Student Council is to promote the activities of the student life in the University, to serve as a center for such activities, to promote the best interests of the student, and to act as a liaison between the students and the faculty and administration. The Council spends much of its time in dealing with various problems the students may have.

The University of Tennessee Chapter of The Student American Dental Association was organized in November, 1955, and since then has rapidly become one of the largest student chapters in the country.

The organization is governed by a board consisting of sixteen men. One representative is elected from each class and four officers from the entire membership of the organization.

The purpose of the Student A.D.A. is to broaden the education and knowledge of the student. The local chapter is responsible for furnishing monthly to each member the Journal of the American Dental Association. Outstanding clinicians and guest lecturers are brought to the campus throughout the year. This past year, under the leadership of Dr. T. H. Shipmon, a glee club, the first of its kind, was organized from student members. Already this group has received much recognition and was invited to appear at the Tennessee State Dental Convention in Nashville.

Many student members participated in the Annual Dental Alumni Seminar by presenting table clinics on various subjects relating to dentistry. Seven of the clinicians attended the Arkansas State Dental Convention and twelve presented their clinics at the Tennessee State Dental Convention.

The Student A.D.A. also acts as a medium by which the student is able to establish contact with organized dentistry and the progress of the profession during the period he is receiving his education.

The University of Tennessee Student Chapter of the American Dental Hygienist's Association is an organization composed of the dental hygiene students enrolled in the University of Tennessee. Participation in the organization helps to orient the student in her chosen profession, increase her interest in and knowledge of organized dental hygiene, and acquaints her with the importance of active membership in the American Dental Hygienist's Association after graduation. The cooperative efforts of all members are directed toward the promotion of high standards and ideals for the dental hygiene profession.

The Student Chapter of the American Pharmaceutical Association was established at the University of Tennessee College of Pharmacy in 1948. Its object is to further the student's knowledge in the various aspects of pharmacy by furnishing each member with the Journal of the American Pharmaceutical Association and by bringing well known personalities in the profession of pharmacy and in the allied medical professions as guest speakers to the chapter's regular monthly meetings. It also functions to familiarize the student with the organized program of the profession during the period he is receiving his education.

Among the projects sponsored by the Student Chapter of the APhA is the preparation and operation of a booth at the Mid-South Fair for the Memphis Retail Druggists Association and publication of **THE GRADUATE**, a student journal from the University of Tennessee College of Pharmacy. Miss Anna Jean Robertson, a senior student member, presented a paper, "Is The Generic System Our Answer," at the APhA National Convention in Miami Beach, Florida, May 1963.

The Junior Medical Auxiliary was founded in 1939. Since that time it has grown rapidly in size and in objectives. In 1959 the organization became part of the Women's Auxiliary to the Student American Medical Association (WA-SAMA). The Memphis chapter is the largest and one of the most active in the U.S. Present membership is near 160.

The purpose of the Auxiliary is threefold: to provide fellowship for the wives of medical students, to prepare them for their future role as physicians' wives, and to render service to the community and the medical school.

Monthly programs vary according to the needs and desires of the members. Emphasis is placed on the value of having certain programs selected for their medical education as well as general educational value.

The auxiliary's regular activities and projects include community welfare work and a university-wide book exchange for the resale of textbooks. Perhaps the greatest service was the establishment of a loan fund for medical students. Contributions are also made to the student emergency loan fund. A cookbook was published this year to make money for these projects.

The Junior Dental Auxiliary meets each month for programs, refreshments, projects and fellowship. The first meeting of each quarter, a reception is held honoring the first quarter wives. They learn that Junior Dental Auxiliary means more than just an outing, but new friends and interesting programs such as fashion shows, talks from interior designers, hair styles, and information on what their husbands are learning in dental school.

The Auxiliary's outside activities include birthday parties each month for the children at Porter Leath Orphans Home, fund raising projects such as pancake breakfasts, and luncheons at the end of each quarter to honor senior wives.

The Auxiliary is made up of approximately ninety active members. The officers and committees help to ready the new wives for senior Dental Auxiliary when their husbands graduate. Wives active in Dental Auxiliary while husbands are in school are ready to meet the public in a manner becoming their professional status.

Quarterly Luncheon honoring senior wives was held at the Chisca Plaza

The Junior Pharmacy Auxiliary was organized in the year of 1951 as a means to promote friendship and fellowship among the wives of the Pharmacy students at the University of Tennessee.

At the beginning of each year the first quarter wives are welcomed at a tea in their honor. At the end of the year a luncheon is given in honor of the wives of the graduating seniors, with the presentation of the much coveted degree of P.H.T. (Pushing Hubby Through).

JUNIOR PHARMACY AUXILIARY

THE KOINONIA

The New Testament Greek word **koinonia**, translated "fellowship," is used by this group to designate its purpose and function. Its members are Christians who reject all denominational barriers and loyalties in order to promote personal allegiance to Jesus Christ and fellowship with all who cherish a "like precious faith."

Through worship, Bible study and fellowship they seek to comprehend, in the light of their spiritual commitment, the full scope of their responsibility as practitioners of the healing arts. By means of the transforming influence of the Spirit of Christ, they seek, while still in school, to conform their lives to the ideals of holiness, compassion and service to their fellow man which were exemplified by the Son of God. Their aim is to be the living embodiment of His presence in today's world.

A devotional service is conducted each Tuesday at 12:25 p.m. for all who desire to attend. The group meets on the top floor, north side of the University Center. A week-long series of noon lectures was presented during the Spring quarter by Campbell Pullias, minister for the Jackson Avenue Church of Christ in Memphis.

John Vanderpool, medical student from Memphis, served during 1963 as student leader of the Koinonia group. Dr. Floyd Dunn, professor of biochemistry, is faculty sponsor. Bob Riggs, associate minister for the Union Avenue Church of Christ, is advisor for the group.

Each year the staff of the ASKLEPIEION is composed of our students representing the Colleges of Medicine, Dentistry, Pharmacy, and Nursing. Over a period of months these students meet with Mr. Jim Stockdale and Mr. Bill Robinson and compile the material for the yearbook. We, the staff of the 1963 ASKLEPIEION, hope that over a period of many years the students of the entire Medical Units can look back at their yearbook and be filled with memories of the fun and festivity as well as the hours spent in diligent study. We wish to thank all who have helped in the preparation of this yearbook. Our special thanks go to our advisors Mr. Jim Stockdale and Mr. Bill Robinson; our photographers, Misters Les and Eddie Cooper; and Mr. Bill Benson of the Benson Printing company. Their help and cooperation were ever present.
