

Asklepieion (ə-ˈskle-pē-ɒn)

Asklepieion is a word derived from the name of Aesculapius, the Greek god of medicine and healing. Aesculapius was honored and worshipped throughout the Greek world by persons seeking the healing powers of the physician. Temples were erected in honor of Aesculapius near healing springs or high mountains. Those who worshipped him were known as Aesculapae. Therefore, the temples in his honor were known as Aesculapions (Asklepieions).

In the ancient city of Memphis, on the Nile River, there was a temple where people went for worship and for care. In our own city of Memphis, on the Mississippi River, people come to our Asklepieion for healing and care.

H1N1 Virus Pandemic

The H1N1 virus dominated the headlines. The World Health Organization declared it a pandemic. U.S. President Barack Obama declared H1N1 a national emergency. UTHSC staff and students were among the first to receive the H1N1 vaccine.

Haiti Earthquake Relief

On January 12, a 7.0 magnitude earthquake devastated the country of Haiti. An estimated three million people were affected by the quake. UTHSC students and employees raised nearly \$17,000 for Haiti relief efforts.

Domain Change

The UT Health Science Center changed web and e-mail addresses from utmem.edu to uthsc.edu. "The change to uthsc.edu synchronizes our electronic identity with the official name of our institution," said Ken Brown, JD, MPA, PhD, executive vice chancellor and chief of staff at UTHSC.

GEB Makeover

Health Care Reform

Health care reform was a hot topic of debate this year. The campus hosted a town hall meeting (left) which featured various city and state leaders. President Obama signed health care reform legislation into law on March 23, 2010.

The GEB underwent a makeover that included new flooring, tables and chairs, flat screen TVs, and the addition of the GEB Cafe.

Campus Progress

State approval was given for construction of the new Translational Science Research building on the Memphis campus. The new building will be adjacent to the Cancer Research building on the corner of Union Ave. and S. Manassas St.

The opening of the Regional Biocontainment Laboratory featured Congressman Steve Cohen, officials from the National Institutes of Health and Memphis Bioworks Foundation, and representatives from the UT Health Science Center.

The Dunn Dental building received much-needed renovations. The clinical/predoctoral training area (pictured above) was reconstructed from floor to ceiling with new flooring, cabinetry, chairs, units and ceiling tiles.

In 1980, the SGAEC established the Imhotep Society, a campus organization to recognize students who, because of their service and leadership, have significantly contributed to student life on this campus. It recognizes that many student leaders, in performing their functions and assignments, may have sacrificed high academic accomplishment and thus did not receive recognition through those organizations that traditionally honor students for high academic and clinical achievement. The society was named after the ancient Egyptian god of medicine Imhotep.

Hershel "Pat" Wall, MD, was the recipient of the 2009 Imhotep award signifying outstanding service to students. Kate Bodford, '08-'09 SGAEC president, presented the award.

One of the most prestigious awards a faculty member can win is the SGAEC Excellence in Teaching Award. The winning recipients are nominated by the students of the various colleges. Each year, two faculty members from each college receive awards (College of Social Work receives one award). The recipients are presented with a plaque, a \$2,500 stipend, and public recognition at the SGAEC Banquet, college convocations and commencement ceremonies.

campus recreation

The Office of Campus Recreation is the focal point for recreational opportunities at the UTHSC. Physical activity plays a vital role in the development and the maintenance of a healthy, well-adjusted individual.

Our diverse programs in Fitness & Wellness, Instructional Programs, and Intramural Sports help us provide participants with life long activities to help individuals in their quest to enjoy life to its fullest.

Instructional Programs

The Instructional Programs of Campus Recreation provide opportunities for students, faculty and staff to participate in common activities from around the world. Our goal is to provide an enjoyable and worthwhile experience with indoor activities. These skills can be transferred to our personal lives giving you the ability to dance, overcome fears, and become more active in a variety of activities.

Intramural Sports

The mission of the Intramural Sports Program is to provide our students, faculty, staff and their spouses with a variety of recreational opportunities in team, dual and individual sports. The program exists to help students relieve stress, interact with students from other classes, get exercise, and introduce students to lifetime recreational activities.

Intramural Sports

Fitness & Wellness

The Fitness and Wellness Program of Campus Recreation offers many opportunities to enhance your personal health and wellness. Programs are designed to assist you in a variety of wellness-related topics including healthy eating, cardiovascular exercise, strength training, weight, stress, time management, and personal health issues.

The UT Health Science Center Mission

The mission of the University of Tennessee Health Science Center is to bring the benefits of the health sciences to the achievement and maintenance of human health, with a focus on the citizens of Tennessee and the region, by pursuing an integrated program of education, research, clinical care, and public service.

Offering a broad range of postgraduate training opportunities, the main campus is located in Memphis and includes six colleges: Allied Health Sciences, Dentistry, Graduate Health Sciences, Medicine, Nursing and Pharmacy. UTHSC has additional colleges of Medicine and Pharmacy plus an Allied Health Sciences unit in Knoxville, as well as a College of Medicine campus in Chattanooga.

Tennessee Health Management - Rehab America Biomechanics Laboratory (Motion Analysis Lab)

The Department of Physical Therapy gained new tools to use for research, patient assessment and education. The Physical Therapy research room has been converted into a state-of-the-art biomechanics laboratory.

Dental Hygiene incorporated the administration of local anesthesia into the curriculum. The course prepares dental hygienists to assist in alleviating and managing patients' dental pain and anxiety through local anesthetic administration.

Occupational Therapy associate professor Ann Nolen, PsyD, OTR, teaches a class in Memphis while Chattanooga students participate via video conference technology.

College of Allied Health Students joined other UTHSC students and faculty in the annual American Heart Association Heart Walk to raise money and awareness of heart disease. The college always has a great turnout.

The University of Tennessee College of Medicine Chattanooga (UTCOCM), partnering with Erlanger Health System, continues to grow in its role as the primary provider of health care and education in the southeast Tennessee region. The Chattanooga Medical College, part of a Grant College later renamed the University of Chattanooga, was opened in 1899. The current College of Medicine was established in 1973 as a branch campus of the main medical school in Memphis. It provides training for junior and senior medical students, as well as residency and fellowship programs.

Our 13 accredited residency and fellowship programs include:

- Emergency Medicine
- Family Medicine
- Internal Medicine
- Obstetrics and Gynecology
- Orthopaedic Surgery
- Pediatrics
- Plastic Surgery
- Surgery
- Transitional Year
- Geriatric Medicine Fellowship
- Surgical Critical Care Fellowship
- Vascular Surgery Fellowship
- Hospice/Palliative Care Fellowship
- Orthopaedic Trauma Surgery Fellowship (not seeking accreditation)

THE UNIVERSITY OF TENNESSEE HEALTH SCIENCE CENTER
COLLEGE of MEDICINE **UT**
CHATTANOOGA

UTCOCM continues to host a robust Research Advisory Committee which encourages university and community investigators to collaborate and explore exciting new areas of health care innovation. Current initiatives include:

- ▶ Awarded participation in the National Children's Study, partnering with Emory University and Battelle
- ▶ Awarded funding to explore development of an orthopaedic nanofiber/antibiotic medical device with E-Spin Technologies
- ▶ Project development in CILVRI (Center for Independent Living Research Institute)
- ▶ Stroke treatment in collaboration with the Erlanger Southeast Regional Stroke Center, southeast Tennessee's first and only accredited primary stroke center
- ▶ Research on high-risk, low birth-weight babies in collaboration with Regional Obstetrical Consultants
- ▶ Studies in instructional design and simulation training in collaboration with the University of Tennessee Chattanooga

UTCOCM also partners with Erlanger Health Systems as a member of the Institute for Healthcare Improvement Open School Program.

The UTCOCM Office of Continuing Medical Education (CME) continues to serve as the statewide UT Health Science Center administrative office. This past year it received national accreditation with commendation from the Accreditation Council for Continuing Medical Education, which less than 10 percent of all providers receive. In addition to its statewide role, the office provided credit approval support and educational management to Chattanooga and Memphis departments, Erlanger Health System committees, and regional medical providers. Some of the past year's programs (both new and recurring) which exemplify the office's commitment to excellence include:

- ▶ Stroke Education Series in cooperation with the Southeast Regional Stroke Center (international audience)
- ▶ Risk Management Seminars in cooperation with State Volunteer Mutual Insurance Company (statewide audience)
- ▶ Annual Family Medicine Update and Addiction Medicine Conference (regional audience)
- ▶ Faculty Development Curriculum including monthly series and a retreat
- ▶ Ethics Quarterly in cooperation with Erlanger Health System Medical Ethics Committee
- ▶ Annual Research Compliance and Methods conferences

HONOR MEDICAL SOCIETY
Beta Chapter
THE UNIVERSITY OF TENNESSEE

Alpha Omega Alpha is the only national honor society in the world. Its reason for being can be expressed in a phrase: to recognize and perpetuate excellence in the medical profession. As stated in the society's constitution, "Alpha Omega Alpha is organized for educational purposes exclusively and not for profit, and its aims shall be the promotion of scholarship and research in medical schools, the encouragement of a high standard of character and conduct among medical students and graduates, and the recognition of high attainment in medical science, practice, and related fields." ΑΩΑ elects outstanding medical students, graduates, alumni, faculty, and honorary members to its ranks. The society's key is designed after the Manubrium Sterni. The letters ΑΩΑ, engraved on the key, represent not only the name of the honor society, but the essential words in its motto:

Αξιπς ὠφελεῖν τοὺς ὑλοῦντας

"To be worthy to serve the suffering"

DEDICATED EDUCATION UNIT (DEU)

Working in partnership, UT College of Nursing and Methodist University Hospital established a new model of clinical nursing education through collaboration of nurses, faculty and management. Clinical teachers, who are staff nurses on the patient unit, train students in adult nursing practice during an average 10-week rotation. The DEU setting provides personalized instruction to create a richer, more intensive, real-world clinical experience.

Modeling after the first DEU at Methodist University Hospital, the college expanded the program by opening two additional units at Le Bonheur Children's Medical Center.
